## Decoded Nomad Native Union

## DECODED

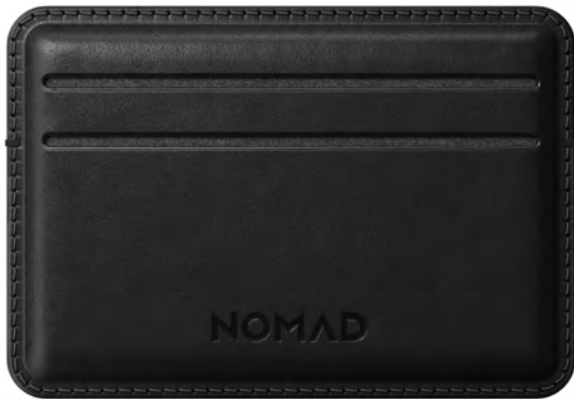

**Decoded Wireless Charging Puck  
15W, black**

- The wireless charging puck is compatible with MagSafe and is designed to charge your iPhone quick and easy.
- The magnets ensure you can attach the iPhone in a simple click and the charging will start immediately
- Use it with a MagSafe compatible case or attach it directly to your iPhone for optimal charging.
- The magnetic function works only for iPhone 12 models, however the Charging Puck is compatible for wireless charging on all Qi-enabled devices
- With charging up to 15 Watt and featuring an aniline leather inlay with a strong and durable edge, the magnetic Wireless Charging Puck is the perfect combination of function and style
- The leather inlay provides a soft contact point for your device, which protects against scratches and slips.
- Additionally, the Wireless Charging Puck prevents your device from overcharging, as it stops automatically once the battery is fully charged
