EAN 8594215990994

- **Please note: there is only spare glass in the package for unique screen protector installation kit with auto position of the glass, easy applicator kit is not included. Spare Glass can't be used as standalone.**
- **Scratch and fingerprints protection** – the hardness of the protective glass protects the screen from scratches and fingerprints, improving the aesthetics and readability of the screen.
- **Anti-crack protection** – the higher hardness of the protective glass increases its resistance to impacts and drops, minimizing the risk of cracking or tearing the phone screen.
- **Glare reduction** – protective glass can minimize glare and improve screen readability in bright sunlight or other lighting conditions.
- **Improve image quality** – protective glass can improve image quality, sharpness and clarity.
- **Chemical resistance** – protective glass contains a chemical composition that improves the screen's resistance to chemicals and acids.
- **Wear resistance** – due to the hardness, the protective glass will wear less, meaning it will retain its clarity and quality for longer.
- **Water protection** – the protective glass has a water-repellent layer that prevents water from entering the screen and reduces the risk of damage.
- **Improved grip** – protective glass can improve the grip of your fingers on the screen, improving the handling and control of your phone.
- **Easy to install** – our protective glass is easy to apply with installation kits.
- dust remove automatically when peel off the first outter film
- 4X stronger glass, 9H hardness, anti-shock, anti-explosion, anti-scratch
- electroplating process makes super smooth surface
