Supported cryptocurrencies:

Safeguard your crypto, NFTs and tokens

- Bigger screen offers easy navigation and a smooth experience
- Large memory lets you install over 100 apps simultaneously and manage over 5500 digital assets
- Buy, sell, swap, and grow your crypto, secure your NFTs, and access DeFi apps and more through our proprietary app: Ledger Live
- Send and receive your NFTs with confidence and full transparency in Ledger Live
- Our secure certified chip (CC EAL5+) protects your assets against the most sophisticated attacks
- Please note that our devices and Ledger Live App are not compatible with Chromebooks

How is your crypto safer with Ledger?

- Crypto “ownership” is not about the location of the coins, but access control. With Ledger, nobody can access your coins but you (not even us).

Industry-leading security.

- Ledger Nano are the only hardware wallets that combine independent, third-party certification (ANSSI) TBC* with a proprietary operating system (BOLOS).

Ledger Live: Your All-In-One Crypto Ecosystem

- Buy over 50 coins and tokens
- Swap your coins or tokens in seconds
- Send/receive coins to/from other wallets or platforms
- Easily track your entire portfolio
- Check crypto prices, charts and market cap in real time
- Stake your assets and watch them grow in real time
- Connect to dApps like 1inch or Lido and take part in Web 3.0!
- You can also use an approved third-party wallet to manage coins or tokens not yet supported by Ledger Live

Buy, swap, lend, grow and sell transaction services are provided by third-party partners. Ledger provides no advice or recommendations on use of these third-party services.
