Nanoleaf Essentials Smart Downlight Matter

PN **NF080D02-1W3**
RRP **24,99 €**
EAN **4897105333999**

- A Thread and Matter-enabled smart bulb that's as simple to set up as it is to use. Unique multi-faceted bulb design and the purest color performance create a stunning illumination in any space. High brightness and endless colors will take your space from work mode to relaxation or fun instantly. Access lightning fast speed and robust reliability over the Thread network with any eligible Thread border router, while enjoying a truly integrated smart home with Matter.

Key features:

- **Matter enabled:** Matter allows compatibility with major smart home ecosystems, providing more ways for users to customise and futureproof their smart homes.
- Works over the Thread: Get lightning-fast speed and robust reliability over Thread—a fast, low-power wireless mesh network. Even though Nanoleaf Essentials Matter work over Thread, you can still use them with Bluetooth with the Nanoleaf App.
- **Customised Schedules:** Automate your lights to turn on/off at specific times and days to make your daily routines a little easier (using the Nanoleaf App or any other Matter-compatible app or voice assistant).
- **Limitless Colours & Brightest Whites:** 16M Colours: Virtually limitless colour options. Choose your favourite vibrant colour or create colour-changing Scenes for the perfect ambience.
- **Vivid Whites:** The brightest white lighting with extended temperature range from the coolest to warmest whites.
- Maximise Comfort and Productivity: With Circadian Lighting, set your lights to automatically adjust to the colour temperature of the sun based on your timezone or manual settings.
- **Screen Mirror:** The colors from your screen are reflected onto your lights for an immersive experience. Watch as your lights sync with the colors from your favourite movies and video games. Available through the Nanoleaf Desktop App.
- **Simple setup:** Scan the Matter QR code to pair your bulb and easily add it to your home.
- **System Requirements:** Requires a Matter compatible smart home hub, thread border router and iOS/tvOS 16.5+ or Android OS 8.1+ to connect to a smart home ecosystem.
