PN SGA-F-i15Plus-2pk

RRP 20,99 €

EAN 8594215990383

- Scratch and fingerprint protection – the hardness of the protective glass protects the screen from scratches and fingerprints, improving the aesthetics and readability of the screen.
- Anti-crack protection – the higher hardness of the protective glass increases its resistance to impacts and drops, minimizing the risk of cracking or tearing the phone screen.
- Glare reduction – protective glass can minimize glare and improve screen readability in bright sunlight or other lighting conditions.
- Improve image quality – protective glass can improve image quality, sharpness and clarity.
- Chemical resistance – protective glass contains a chemical composition that improves the screen's resistance to chemicals and acids.
- Wear resistance – due to the hardness, the protective glass will wear less, meaning it will retain its clarity and quality for longer.
- Water protection – the protective glass has a water-repellent layer that prevents water from entering the screen and reduces the risk of damage.
- Improved grip – protective glass can improve the grip of your fingers on the screen, improving the handling and control of your phone.
- Easy to install – our protective glass is easy to apply with installation kits.
- unique screen protector installation way in the market with auto position of the glass
- dust remove automatically when peel off the first outter film
- 4X stronger glass, 9H hardness, anti-shock, anti-explosion, anti-scratch
- electroplating process makes super smooth surface
- bubble free, anti-fingerprint
- Japan Asahi Glass, SEGI chemical glue

Package includes:

- Tempered glass 2 pcs
