

meross

Relaunch!

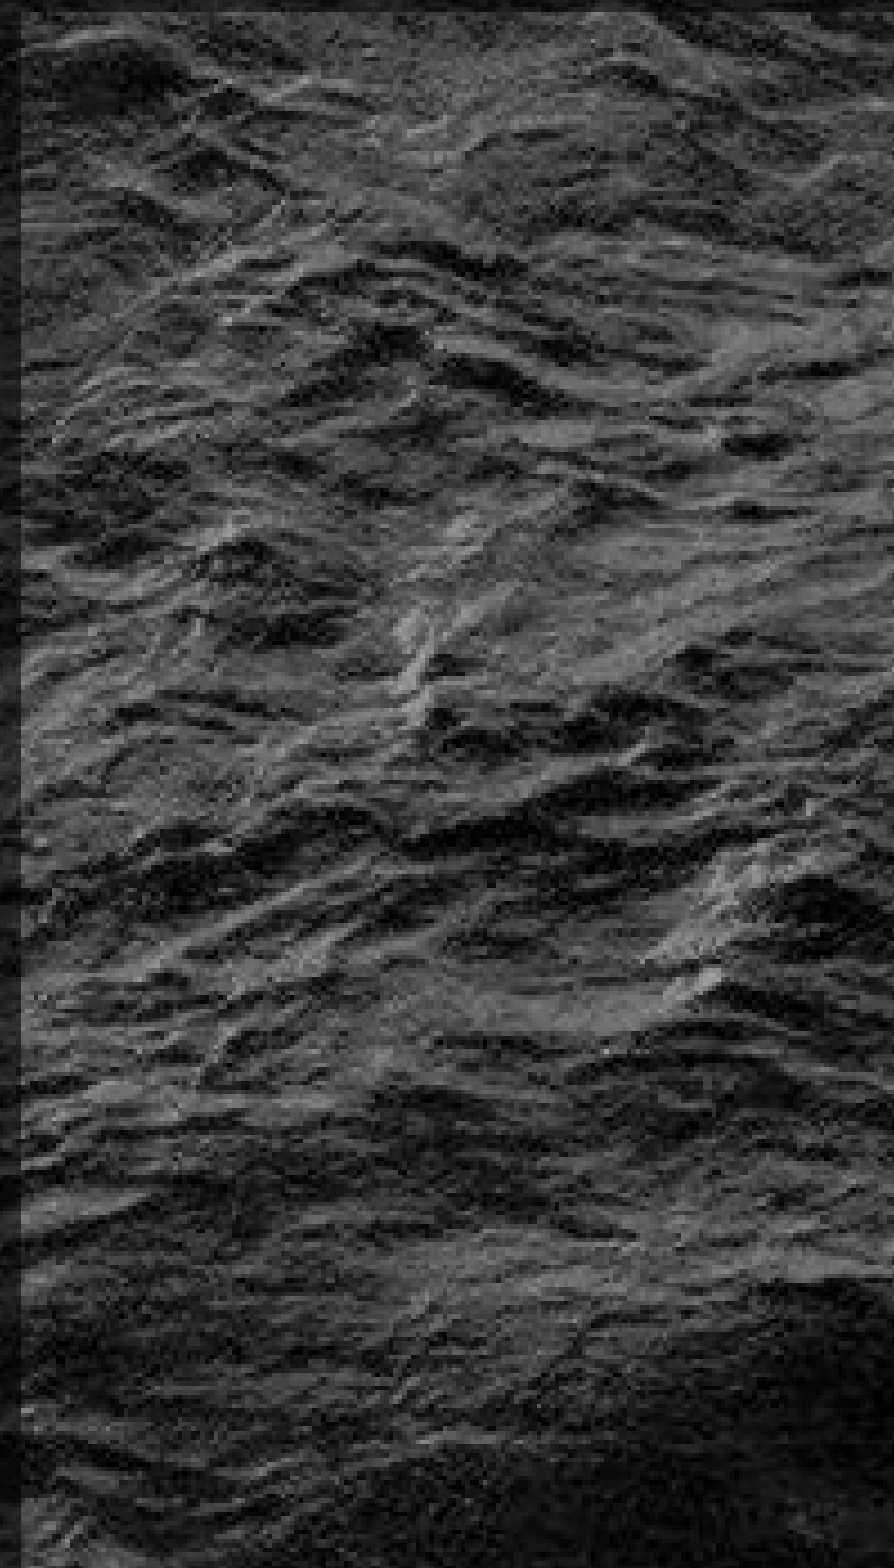

Creativity is thinking up new things; innovation is doing new things. Meross, founded in 2016 by a group of experts from leading companies such as Microsoft, Cisco, MediaTek, and TP-Link, is replete with both first-class creativity and cutting-edge innovation.

Meross creates products that empower people's lives. The brand believes in making homes smarter and people's lives easier: everyone deserves a smart life, and it should be simple, smart, and stable.

Meross has strong research and development capabilities, excellent operating experiences and solid partnerships with pertinent players in the industry, resulting in bountiful financial support and escalated profit growth.

Today, the company has expanded with its tentacles spread across millions of customers from over 20 countries and regions.

Meross products are compatible with Apple HomeKit, Amazon Alexa, Google Assistant, SmartThings.
